What is Acuarela?

In this collection, Maurilio Moreira Fondevila, as a testament to his masterful technical mastery, fuses delicacy and versatility, capturing the essence of his characters, figures and moments, with a dynamic and expressive palette.

Watercolor is a metaphor, an allusion to the changing, fluid, surprising and adaptable nature of the human being, by the talented artist Maurilio Moreira Fondevila.

It is a surreal series that shows characters with hidden stories and emotions, which are contrasted with reality and dressed to give rise to the interpretation and emotional vision of the viewer, combining a chromatic game between the emotions of those who admire the work and the ideas, that are revealed through the names of the works and the artist's message.

Each artwork captures strong contrasts and tones, creating fascinating compositions that evoke emotions and lead to reflection.

I invite you to immerse yourself in a world of vibrant colors and bold brushstrokes, where you can explore the contrasts between light and shadow, as well as the subtle details that make each painting a masterpiece in itself, in this beautiful catalog.
